June 5, 2013

Dear Landowner:

Enclosed please find a " NOTICE OF ALLOCATON FOR CHANGE IN THE POINT OF DIVERSION" . You are receiving this correspondence as you have property located within a one-mile radius of our existing well located at the McVille Airport. The initial Airport well application had not mapped the correct area in the parcel of the section of land where it is located. We are also amending the categorization of the well to commercial government use.

The City of McVille and Council are now in charge of the McVille Airport and are in the process of correcting the problems incurred to bring this well into compliance as required by the State Health Department of North Dakota and State Water Appropriation Commission. Please be advised the City is amending it's current Water Permit No 4185 to include the airport well due to it's close proximity to our main water source and existing well.

Please be assured the City will protect the integrity of this well as it lies over our Wellhead Protection area. If you have any further questions, please contact the McVille City Office at the above-listed telephone number.

Sincerely,

Robert Stanley

Robert Stanley, Mayor

RS/rea
Enclosure

NOTICE OF APPLICATION FOR
CHANGE IN THE POINT OF DIVERSION

Permit No. 4185

TAKE NOTICE that the ***city of McVille***

has made application to the State Engineer of North Dakota for a change in the point(s) of diversion for Water Permit No. 4185. The application requests authority to divert and appropriate water from ground water.

The Specific new point or points of diversion are as follows:

The SE1/4NE1/4 of Section 34, Township 150 N., Range 59 W.

The average approximate rate of withdrawal from the new point or points of diversion during the operating season for each year said permit may remain in force shall be 300 gallons per minute of water, for the purpose of: Municiple use.

Water Permit No. 4185 is approved for the appropriation of 85.0 acre-feet of water annually from ground water sources, with a maximum rate of withdrawal of 300 gallons per minute.

The priority date of Water Permit No. 4185 is May 22, 1990.

THE REQUESTED ANNUAL APPROPRIATION AND TOTAL PUMPING RATE, WILL REMAIN UNCHANGED.

Notice of Application will be published in the:

Lakota American – Lakota, ND

The published Notice of Application will give a date by which written comments regarding this proposed water permit application must be filed with the State Engineer, State Office Building, 900 East Boulevard, Bismarck, North Dakota 58505-0850. Written comments must include the name and address of individual filing said comments. Any person providing written comments may also request an informational hearing. The State Engineer will consider all written comments and prepare a recommended decision, which will be provided to the applicant and persons submitting written comments. Those persons may provide additional information, request an adjudicative proceeding, or both.

Dated this 5 **day of** June, **20**13.
